

SCANSONIC

H I F I L O U D S P E A K E R S

scansonic-series o

Scansonic introduces a new stylish loudspeaker range that will impress you not just with their beautiful finish but with their stunning sound quality too! The new S-series consists of several models, from small compact speakers to slim floorstanding speakers and stylish subwoofers.

You can create your own surround system by choosing the different speakers in the Scansonic S-series.

This is possible due to perfect voice matching of all the models in the range

Scansonic S-series comes in a choice of three different colors, in high gloss piano lacquer. The compact S4 model is available in 5 colours and two different wall brackets are supplied as standard.
